.SCA Domain Name Terms and Conditions

This .SCA TLD Domain Name Terms and Conditions (.SCA TLD T&Cs) sets out the terms and conditions governing the registration and use of domain names in the .SCA Top Level Domain.

The .SCA TLD T&Cs may be updated periodically, without prior notice. The current version can be found at <http://nic.SCA/policies>, and continued registration or use of a .SCA domain name after any update constitutes acceptance of the current version. The only remedy in case of any disagreement with the current terms of the .SCA TLD T&Cs is to cancel your domain name registration.

The .SCA TLD T&Cs are to be read in conjunction with the .SCA TLD Registration Policy. No other agreements or representations supplement or alter the terms of the .SCA TLD T&Cs, except as expressly incorporated herein.

Any undefined capitalised term in the .SCA TLD T&Cs shall have the meaning set out in the ICANN Registry Agreement applicable to the .SCA Top Level Domain, available at <http://www.icann.org/en/about/agreements/registries/SCA>

General/Definitions

Abuse Point of Contact means the .SCA Top Level Domain's abuse response team, which can be contacted at abuse@valideus.com.

Identical Match means that the domain name consists of the complete and identical textual elements of a Trademark Clearinghouse-validated trade mark. In this regard, marks which would be identical to Trademark Clearinghouse-validated trade marks but for the following amendments qualify as Identical Matches: (a) spaces contained within a mark that are either replaced by hyphens or omitted; (b) only certain special characters contained within a trade mark are spelled out with appropriate words describing it (“@” and “&”); (c) punctuation or special characters contained within a mark that are unable to be used in a second-level domain name may either be (i) omitted or (ii) replaced by a hyphen and still be considered Identical matches; and (d) no plural or “marks contained” (i.e., “brandx” in “brandxproducts”).

Registrar means Com Laude.

Registry Services Provider means the entity providing back-end technical and operational services for the .SCA Registry, in this case, Verisign.

SCA (or “we” or “us”) means SVENSKA CELLULOSA AKTIEBOLAGET SCA (publ).

.SCA means the .SCA Top Level Domain.

.SCA TLD Registration Policy the .SCA Domain Name Registration Policy which sets out the eligibility criteria for domain names in the .SCA Top Level Domain

.SCA TLD T&Cs the .SCA Domain TLD Terms and Conditions which sets out the terms and conditions governing the registration and use of domain names in the .SCA Top Level Domain, and which

incorporates, as relevant, the SCA Terms of Service, available at: www.sca.com/en/Pages/Terms-of-use/.

Top Level Domain means the final characters after the dot in a domain name; in the case of *nic.sca*, this is “.SCA”.

Trademark Claims means the process whereby notice is given to a prospective domain name registrant concerning the scope of the rights of a trade mark owner whose mark is an Identical Match to the requested domain name, and whereby the prospective registrant warrants that: (i) they have received notification that the mark(s) is included in the Trademark Clearinghouse; (ii) they have received and understood the notice; and (iii) to the best of their knowledge, the registration and use of the requested domain name will not infringe the rights that are the subject of the notice. If the domain name is registered subsequent to the notice being issued and the registrant attesting to its non-infringement, the Registrar or the Trademark Clearinghouse will notify the mark holder(s) of the registration.

Trademark Claims Period means the first ninety (90) calendar days during which domain names are made available to eligible registrants.

Trademark Clearinghouse means the central storage repository of validated (authenticated) trade mark rights-related data and information for dissemination with respect to trade mark rights protection mechanisms and other registry-related services mandated by ICANN and currently run by Deloitte.

You or your means an individual or entity seeking to initiate registration of a .SCA domain name, or if allowed, the domain name registrant).

Terms used in the singular or plural are merely for convenience, and shall apply mutatis mutandis, as the context may require.

All communications and information under this .SCA TLD T&Cs shall be in English.

You also agree to the applicability of SCA's Terms of Service, which are incorporated herein, and which are available at www.sca.com/en/Pages/Terms-of-use/, including in particular but without limitation as to Indemnity, Disclaimers of Warranties, and Limitation of Liability.

You agree that SCA reserves the right, in its sole discretion, to suspend, lock, cancel, revoke, or otherwise alter any .SCA domain name registration including by making changes to DNS settings or taking any other action (including any actions made possible in the future by changes in DNS-related technical protocols or otherwise) deemed necessary by SCA in its sole discretion: (i) to protect the interests of SCA; (ii) to comply with any laws, court or law enforcement requests, or any dispute resolution process including ICANN rights protection mechanisms; (iii) to avoid any civil or criminal liability against SCA or its Affiliates, subsidiaries, officers, directors, employees, agents, consultants, or contractors; (iv) pursuant to the .SCA TLD Registration Policy or .SCA TLD T&Cs; or, (v) to remedy any error in connection with a .SCA domain name registration; or (vi) as otherwise deemed necessary by SCA in its sole discretion.

Acceptable Use

SCA reserves the right to periodically review .SCA domain name registrations [and uses] for compliance with the .SCA TLD Registration Policy and .SCA TLD T&Cs. For example, but without limitation, by registering a .SCA domain name, or by asking us to maintain or renew a .SCA domain name registration:

- you represent and warrant that you will not distribute malware or operate botnets, or engage in phishing, piracy, trademark or copyright infringement, fraudulent or deceptive practices, counterfeiting or any other activity contrary to applicable law
- you acknowledge and agree that it is your responsibility to determine whether your domain name registration does or may infringe or violate the rights of a third party or applicable law
- you warrant and represent that your registration or use of a .SCA domain name does not and will not:
 - give rise to any morally objectionable or otherwise socially questionable conduct
 - violate any applicable laws or regulations
 - in any way harm the reputation or goals and operating principles of SCA

You further agree that SCA may, in its sole discretion, lock, suspend, cancel, revoke, or otherwise take (or require you to take) remedial action to cure any breach of the .SCA TLD Registration Policy or .SCA TLD T&Cs if your registration [or use] of a .SCA domain name violates the .SCA TLD Registration Policy or .SCA TLD T&Cs or applicable law, or otherwise violates standards of conduct deemed acceptable to SCA in its sole discretion.

By registering a .SCA domain name, or by asking us to maintain or renew a .SCA domain name registration, you agree to use technical and operations protocols as described in the SCA domain name rules as apply from time to time, including but not limited to the following:

- DNS
- NameServer settings
- URL redirection policy
- SSL certificates
- web page format

- email format *example@mail.sca.*]

Any failure to comply with these acceptable use standards may be considered a breach of the .SCA TLD Registration Policy and .SCA TLD T&Cs and may, in SCA's sole discretion, be grounds for the suspension, cancellation, or revocation of your .SCA domain name registration.

Rapid Takedown Process

In furtherance of SCA's efforts aimed at abuse prevention and mitigation, or where it appears that a .SCA domain name is being used to threaten the stability or security of the .SCA Top Level Domain or is a part of a real-time investigation by law enforcement, SCA may, either on its own initiative or at the request of a third party, initiate a rapid takedown process.

In the event a rapid takedown process is initiated, after assessment by SCA, the Registrar may be contacted for its cooperation in taking the subject domain name down (by locking or suspending the domain name, or placing it on hold or deleting it), unless a compelling argument is provided by the Registrar to SCA on which basis the subject domain name may remain in the zone. In either event, if the Registrar has not reacted within 12 hours of SCA's request, SCA may place the subject domain name on "ServerHold" or any other status it deems necessary or appropriate. If SCA determines that the subject domain name is being used to threaten the stability or security of the .SCA Top Level Domain or is a part of a real-time investigation by law enforcement, SCA reserves the right to immediately remove the subject domain name from the zone, in which case SCA will inform the Registrar of such action being taken.

Abuse Prevention and Mitigation

SCA will not tolerate abusive or malicious conduct (including, but not limited to: illegal or fraudulent actions, spam, phishing, pharming, distribution of malware, malicious fast flux hosting, botnets, distribution of illegal child sexual images, online sale or distribution of illegal pharmaceuticals) in the .SCA Top Level Domain. In addition to any monitoring SCA may undertake to prevent abusive or malicious conduct, SCA has established an abuse point of contact for handling complaints or concerns related to any such conduct, which shall also include investigation of and a response to any reports from law enforcement and governmental and quasi-governmental agencies of illegal conduct in connection with the use of the .SCA Top Level Domain.

In the event of any suspected abusive or malicious conduct or violation of the .SCA TLD Registration Policy, .SCA TLD T&Cs or any applicable laws, SCA may suspend or lock your domain name registration pending resolution of any such suspected violation. SCA may also initiate a rapid takedown process to handle such complaints or suspected violations.

While respecting privacy and confidentiality, SCA may periodically conduct technical analyses to assess whether domain names in the .SCA Top Level Domain are being used to perpetrate security threats, such as pharming, phishing, malware, or botnets. If SCA identifies security risks that pose an actual risk of harm, it will notify the Registrar and, if the registrar does not take immediate action, SCA may suspend the domain name until the matter is resolved.

SCA or its delegate may remove orphan glue records (see www.icann.org/en/committees/security/sac048.pdf) when provided with written evidence that such records are present in connection with malicious conduct.

Abuse Point of Contact

Inquiries, whether from law enforcement or the general public, related to alleged abusive or malicious conduct in the .SCA Top Level Domain should be directed to the .SCA Abuse Point of Contact. Complaints may also concern Whois information accuracy, or concerns that a domain name registration is being used to facilitate or promote malware, operation of botnets, phishing, piracy, trademark or copyright infringement, fraudulent or deceptive practices, counterfeiting or otherwise to engage in activity contrary to applicable law.

The .SCA Abuse Point of Contact can be reached by email at: abuse@valdieus.com [, by mail at: SCA, c/o .SCA Registry Abuse Department, Valideus Ltd, 28-30 Little Russell Street, London, WC1A 2HN].

Data & Privacy

By applying to register a .SCA domain name, or by asking us to maintain or renew a domain name registration, you agree to the applicability of the current version of the Privacy Policy as described in the *SCA Terms of Service* available at www.sca.com/en/Pages/Terms-of-use.

You agree that SCA's Whois data requirements require you to provide your complete, accurate, and current contact details in order to undertake a .SCA domain name registration; you also agree that, pursuant to its contractual obligations to ICANN or for any reason determined appropriate in its sole discretion, SCA may publish these contact details or provide them to third parties.

You also agree that ICANN may conduct Whois verification and checks on a statistically significant basis to identify registrations with deliberately false, inaccurate or incomplete Whois data at least twice a year which may result in the Registrar contacting you to solicit accurate and complete Whois contact information.

Disputes

All disputes between you and SCA concerning your registration of a .SCA domain name shall be handled according to the terms of the SCA Terms of Service, available at: www.sca.com/en/Pages/Terms-of-use/.

All disputes between you and a third party concerning that third party's rights shall be handled according to the terms of the UDRP or URS (see Registration Terms & Conditions), court, or other appropriate adjudicatory system.

(i) UDRP

By registering a .SCA domain name, you agree to the applicability of the Uniform Domain Name Dispute Resolution Policy (UDRP); the UDRP policy and rules are located at: www.icann.org/dndr/udrp/policy.htm.

The remedies available for a successful complaint under the UDRP are cancellation or transfer of the domain name to the UDRP filing complainant. In the event of a UDRP decision concerning a .SCA domain name, ordering transfer of a domain name to a UDRP complainant, any such transfer can only occur if the prevailing UDRP complainant meets all requirements of the .SCA TLD Registration Policy and .SCA TLD T&Cs . In the event a prevailing UDRP complainant does not meet the conditions of the .SCA TLD Registration Policy and .SCA TLD T&Cs , notwithstanding any UDRP transfer order,

SCA will cancel the subject domain name registration. At SCA's sole discretion, such cancelled domain name registration may be placed on a "reserved" or "non-resolving" list, or may be made available for registration under the terms of the .SCA TLD Registration Policy and .SCA TLD T&Cs.

(ii) URS

By registering a .SCA domain name, you agree to the applicability of the Uniform Rapid Suspension system (URS); the URS policy and rules are located at: <http://newgtlds.icann.org/en/applicants/urs>.

Trademark Claims

During the Trademark Claims Period, an attempt to register a domain name that is an Identical Match to a Trademark Clearinghouse-validated mark will trigger a Trademark Claims Notice (see Annex). Upon a registrant's confirmation that they have received and understood a Trademark Claims Notice, and that to the best of their knowledge the registration and use of the requested domain name will not infringe the trade mark rights listed in the Trademark Claims Notice, a request for registration will be managed by SCA in accordance with the .SCA TLD Registration Policy.

If, during the Trademark Claims Period, pursuant to the .SCA TLD Registration Policy, a request to register a .SCA domain name which is an Identical Match to a Trademark Clearinghouse-validated mark is eligible and subsequently registered, SCA or the Registrar will notify the relevant mark holders(s) of the registration.

For purposes of .SCA Trademark Claims during the Trademark Claims Period SCA will recognise and honour all word marks that have been or are:

(i) nationally or regionally registered

(ii) court-validated or

(iii) specifically protected by a statute or treaty in effect at the time the mark is submitted to the Trademark Clearinghouse for inclusion – for purposes of Trademark Claims no demonstration of use is required
